Education

Rensselaer Polytechnic Institute (RPI)

Bachelor of Science in Computer Science, GPA: 3.3/4.0

Minor in Economics and Mathematics

Troy, NY

Graduated May 2026

Relevant Coursework

Data Structures, Foundations of Computer Science, Introduction to Algorithms, Programming Languages, Intro to Logic-Based AI, Operating Systems

Skills

JavaScript, TypeScript, NodeJS, PostgreSQL, Docker, AWS, React, Java, Python, C/C++, HTML/CSS

Experience

Western Digital sponsored project - EzASM

Troy, NY

Project Programmer

January 2026 - May 2026

- Working with Western Digital and Rensselaer Center of Open Source to create a small instruction set programming language interpreter to mimic the concepts of lower level assembly language while maintaining the ease of writing that higher level languages have, like terminal functions.
- This will be used for classes in RPI that teach low level assembly languages like MIPS.

Rensselaer Center for Open Source - LEGUP & Shubble

Troy, NY

Project Programmer

June 2024 - May 2026

- Worked on a team to expand a logic based puzzle solving program that is used as homework in logic based classes to show problem solving skills, leading to the available puzzles doubling.
- Improved a custom program where the original creators were no longer on the team, leaving us to work with old, sporadically documented code, which is now fully functional and available.
- Learned teamwork and organization courtesies, especially with github merging.

Gotham Archery

Brooklyn, NY

Instructor

July 2017 - August 2022 / May 2026 - Current

- Teaching new archers the fundamentals in beginner safety classes so they can shoot bows and arrows around each other without anyone getting hurt.
- Managing the line of experienced archers and ensuring safety standards are met and giving pointers when someone is struggling.

Leadership Activities

Class Mentor and Teaching Assistant

Troy, NY

Mentor

January 2026 - Current

- Working as a teaching assistant overlooking 30 students in a class of over 500, grading their homework, helping them with their roadblocks, and directing their learning in computer science.
